Trusted By Millions

2GIG® delivers easy-to-use smart home security

Peace of mind, comfort and convenience are what you expect from your home technology, and it's why millions of families trust 2GIG.

Now, 2GIG elevates your home security and automation even further with the eSeries smart home security and control system. Behind the scenes, our fully encrypted sensors enhance your peace of mind, while the sleek new GC2e panel and its ultra-intuitive interface set new standards for ease-of-use.

- Check system status and arm or disarm from anywhere
- Add users, such as family members, each with their own levels of control
- View recent activity – including arming and disarming – by user
- Customize notification for each user based on non-alarm activity and threats you want to monitor
- Get alerts for alarms, power outages, storms, and other important home security events
- Receive reminders if the system hasn't been armed by the usual time
- Communicate worry-free with monitoring services and police/fire with best-in-class two-way voice

GC2e™ Security & Control Panel

Z-Wave Programmable Thermostat

Easy Smart Home Control

The 2GIG GC2e system makes it easy to control hundreds of different Z-Wave® devices around the home, including lighting, thermostats, outlets, appliances and more.

Remote Control

Wherever you are, always be in control, managing your system from a computer or any smartphone or tablet.

Unique Notifications

With 2GIG Notification Sensors, get early notifications before something becomes a problem, such as when a leak is detected, a valuable has been moved, or a stove is left on.
